

GALAXY is today the pendant of the future.

It has been studied following the advanced L.E.D. technologies, and it can be considered, thanks to its efficient light effect, a unique and innovative pendant.

With its new L.E.D. source of high efficiency, GALAXY can give a great quantity of light, at very high levels and at low energy consumption.

The result is the improvement of the colours' quality and of the chromatic scenes that can change continually thanks to the possibility to change the power and the colours of the light, with the use of the RGB system: all this is included in an original shape by the simple and elegant design.

GALAXY T5 represents the combination of the year, because it is the only pendant that puts the illumination given by the fluorescent tubes, closed to the LED one.

GALAXY, in all the versions available, is the dynamic illumination, which allows to save energy, respecting the environment.

ADVANTAGES

- Greater light efficiency
- L.E.D. Technology mixed to T5.
- Power LEDs: 1.2 W; 2.3 W; 3 W High Bright.
- Forced ventilation with speed adjustable fans.
- Supply: 100- 240 V AC o 12 V DC.
- Dynamic control of the colour (RGB) in the 12 V version through an external signal.
- Long life (from 20.000 to 100.000 hours, depending on the versions).
- Low heat developed: thanks to the cold light of the LED, they don't heat the water, saving energy in the use of chillers.
- Large range of colours: LED 4000 °K; 6000 °K; Blue, Red, Green, Yellow.
- T5: 6000 °K, 10.000 °K, 15.000 °K, SuperActinics 03.
- Extremely simple maintenance: the LED are extremely easy to substitute.
- Strong: the cover is made in extruded and anodized or painted aluminium.

MODELS

Models	N° Power LEDs	N° Tubes T5	Dimensions
Mini GALAXY 40	28	---	40 x 27 x 8
Mini GALAXY 60	44	---	61 x 27 x 8
Mini GALAXY 90	64	---	91 x 27 x 8
Mini GALAXY 120	88	---	121 x 27 x 8
GALAXY 60	99	---	61 x 50 x 8
GALAXY 90	144	---	91 x 50 x 8
GALAXY 120	189	---	121 x 50 x 8
GALAXY 150	234	---	151 x 50 x 8
GALAXY 180	288	---	181 x 50 x 8
GALAXY T5 90	80	4 x 39 W	91 x 50 x 8
GALAXY T5 120	105	4 x 54 W	121 x 50 x 8
GALAXY T5 150	160	4 x 80 W	151 x 50 x 8
